DAĞITIM YERLERİNE

IPBES (Biyçeşitlilik ve Ekosistem Hizmetlerine İlişkin Hükümetlerarası Bilim-Politika Platformu); gezegenin biyolojik çeşitliliği, ekosistemleri ve insanlara sağladıkları faydalar hakkında karar vericilere kanıta dayalı, nesnel ve politikayla ilgili bilgiler sağlamak üzere 2012 yılında kurulmuş bağımsız, hükümetler arası bir organdır.

IPBES, 10. Genel Kurul Kararı (IPBES/10/1) ile Biyçeşitliliği Kapsayıcı Bütünleşik Mekansal Planlama ve Ekolojik Bağlantısallık Üzerine Metodolojik Değerlendirme Raporunun (kısaca Mekansal Planlama Değerlendirme Raporu) hazırlanmasını onaylamıştır.

Mekansal Planlama Değerlendirme Raporu, karasal alanlarda, iç sularda ve devletlerin ulusal yargı yetkisi dışında kalan alanlar da dahil olmak denizlerde arazi kullanımını ve arazi kullanım değişikliğini ele alacaktır. Aynı zamanda, biyçeşitliliği olumsuz etkileyen arazi ve deniz kullanımı değişikliklerinden kaçınma seçenekleri sunacak, doğanın ve doğanın insana katkılarının korunması, restorasyonu ve sürdürülebilir kullanımı için mekânsal ve zamansal ölçeklerde etkili planlama önerileri sağlayacaktır.

IPBES, bu değerlendirme raporunun hazırlanması için akademiden, hükümetlerden ve sivil toplum kuruluşlarından uzmanlar, uygulayıcılar ve kariyerinin başındaki araştırmacılar aramaktadır. Adaylar, başvuru formunu doldurup özgeçmişlerini IPBES web sitesindeki özel portala (uzmanlar için: <https://www.ipbes.net/spatial-planning-assessment/experts-application>; kariyerinin başındaki araştırmacılar için: <https://www.ipbes.net/spatial-planning-assessment/fellows-application>) yüklemelidir. Başvuru formu ve süreci **İngilizce** olup, son başvuru tarihi **10 Ocak 2025**'tir. Başvuru belgelerinin e-posta veya resmi yazı ile Genel Müdürlüğümüze iletilmesine gerek yoktur. Çağrı metinlerine Ek-1 ve Ek-2'den ulaşılabilir.

IPBES değerlendirmesinde görev almak üzere seçilen uzmanlar, gönüllülük esasına dayalı olarak çalışacaklarını kabul etmiş sayılırlar. Süreç, yoğun bir çalışma temposu gerektirdiğinden, başvuruda bulunacak adayların tam katkı sağlamaları ve ülkemizi en iyi şekilde temsil etmeleri beklenmektedir.

Bahsi geçen raporda ülkemiz ihtiyaçlarının gözetilmesi ve olası fırsatların değerlendirilmesi açısından uzman ve araştırmacılarımızın görev alabilmesi ve ülkemiz görünürlüğünün artırılması maksadıyla bu duyuruların ilgili mecralarda paylaşılması hususunda;

Bilgilerini ve gereğini rica ederim.

Kadir ÇOKÇETİN

EM/2024/45

Call for nominations for experts for the methodological assessment of integrated biodiversity-inclusive spatial planning and ecological connectivity

Dear IPBES members, observers and other interested stakeholders,

The IPBES Plenary, in decision IPBES/10/1, approved the undertaking of the methodological assessment of integrated biodiversity-inclusive spatial planning and ecological connectivity (“spatial planning assessment”).

The spatial planning assessment will address the use and change in use of land, inland waters and sea, including areas beyond national jurisdiction. It will provide options for avoiding land and sea use change that negatively affects biodiversity and options for improving planning for effective conservation, restoration and sustainable use of nature and its contributions to people across spatial and temporal scales.

In accordance with decision IPBES-10/1 and the procedures for the preparation of IPBES deliverables, the Multidisciplinary Expert Panel herewith invites Governments and other relevant stakeholders to nominate experts to participate in the spatial planning assessment.

The assessment will be conducted in line with the procedures for IPBES deliverables set out in decision IPBES-3/3, annex I (available [here](#)) and based on the scoping report for the assessment (available [here](#)).

IPBES is seeking experts and practitioners from academia, government, and civil society with expertise in:

- A range of disciplines, including but not limited to geography, ecology, conservation science (including protected area designation), land and water systems science, spatial planning, urban planning, architecture, law, political science and economics;
- The application of spatial planning methodologies and related planning and management approaches in relation to biodiversity and nature’s contributions to people, in terrestrial (including inland waters) and marine systems, including land and sea planning, environmental impact assessment, economic and social zoning, community planning, land and sea use frameworks, and governance frameworks for integrated planning and management;

- The pertinence, effectiveness and limitations of existing methods, guidance, tools, scenarios, models, data, knowledge and capacity building for promoting connectivity and integrating biodiversity in spatial planning, across sectors and scales;
- The trade-offs and synergies between different types of spatial planning methodologies and of land, inland waters and sea use;
- Methodologies for promoting participatory approaches to spatial planning (including those involving Indigenous Peoples and local communities);
- The ecological requirements of migratory and wide-ranging species, complex species communities and diverse ecosystem processes;
- Ecological restoration to recover and enhance biodiversity and ecological connectivity to support ecosystem resilience, climate change adaptation and sustainable livelihoods and associated methodologies and approaches;
- The development or application of scenarios of spatial planning regarding synergies and trade-offs in the biodiversity-food-water-health-climate-energy nexus;
- Capacity, financial and technological implementation needs for spatial planning and ecological connectivity interventions.

Governments and relevant stakeholders are invited to ensure gender balance in their nominations.

All nominated experts (Nominees) need to be available to attend the relevant author meetings, with the first author meeting tentatively scheduled for August 2025.

All Governments and relevant organizations or institutions are encouraged to submit nominations. Nominating organizations or institutions are not required to have been admitted to the Plenary of IPBES as an observer. **Please help us to disseminate this call for nominations of experts widely.**

Please follow the below procedure for nomination:

- Nominees are invited to complete the application form and attach their curriculum vitae through the dedicated web portal at <https://www.ipbes.net/spatial-planning-assessment/experts-application> (to access this page you will need to login with your IPBES website log in credentials. Nominees not yet registered on the IPBES website will need to do so at <https://ipbes.net/user/register>). Please note that the nomination form is in English only and applications should be submitted in English, as the assessment process will be conducted in English;
- The nominating government or organization (Nominator) indicated by the Nominee will receive an email with a link to the nomination form and will be invited to approve and submit the nominations in the web portal;
- Nominators and Nominees will receive confirmation via email once the nomination has been submitted.

Experts wishing to be nominated by a Government are encouraged to contact their IPBES National Focal Point (<https://www.ipbes.net/national-focal-points>) regarding any country specific processes or deadlines and are requested to fill out their application form by **10 January 2025**. Interested experts are highly encouraged to review the information document summarizing IPBES assessment conditions and roles prior to submitting their application ([available here](#)).

Experts that are selected for a role within an IPBES assessment accept the relevant conditions for the assessment, including that the time contributed to IPBES is committed on a pro-bono basis. Experts from developing countries will receive support to attend author meetings and possibly other relevant meetings. Experts from developed countries are to secure their own funding to participate in the meetings.

Nominators (Governments or organizations) should submit the nominations of all Nominees which they would like to support, before **24 January 2025**. Early nominations ahead of this deadline are encouraged.

A dialogue meeting will be organized to facilitate and strengthen engagement by Governments and stakeholders in the nomination of experts and fellows. The meeting will provide information regarding the required relevant expertise of nominees and the nomination process, and will also provide an opportunity for current and previous IPBES experts and fellows to share their experiences of the nomination process and lessons learned. The dialogue meeting is tentatively scheduled for the first week of November 2024, more information will follow shortly.

I thank you in advance for your nominations and your continued support to IPBES.

Yours sincerely,

Dr Anne Larigauderie | Executive Secretary
Intergovernmental Platform on Biodiversity and Ecosystem Services (IPBES)

EM/2024/46

Call for nominations for fellows for the methodological assessment of integrated biodiversity-inclusive spatial planning and ecological connectivity

Dear IPBES members, observers and other interested stakeholders,

The IPBES Plenary, in decision IPBES/10/1, approved the undertaking of the methodological assessment of integrated biodiversity-inclusive spatial planning and ecological connectivity (“spatial planning assessment”).

The spatial planning assessment will address the use and change in use of land, inland waters and sea, including areas beyond national jurisdiction. It will provide options for avoiding land and sea use change that negatively affects biodiversity and options for improving planning for effective conservation, restoration and sustainable use of nature and its contributions to people across spatial and temporal scales.

In accordance with decision IPBES-10/1 and the procedures for the preparation of IPBES deliverables, the Multidisciplinary Expert Panel herewith invites Governments and other relevant stakeholders to nominate fellows to participate in the spatial planning assessment.

Further to the call for nominations of experts for the spatial planning assessment ([EM/2024/45](#)), **Governments and other relevant stakeholders are herewith invited to nominate candidates to participate in the IPBES fellowship programme for the monitoring assessment.**

The IPBES fellowship programme, which is part of a larger capacity-building portfolio of activities, targets early-career individuals who wish to gain experience by participating in the work of IPBES. Selected fellows will participate in the preparation of the chapter of the assessment for which they are selected, and their contribution acknowledged as part of the citation for that chapter. Fellows will attend author meetings and receive training to gain an in-depth understanding of the IPBES assessment processes and the science-policy interface. Fellows will also be paired up with a mentor for the assessment period.

The assessment will be conducted in line with the procedures for IPBES deliverables set out in decision IPBES-3/3, annex I (available [here](#)) and based on the scoping report for the assessment (available [here](#)).

IPBES is seeking fellows from academia, government, and civil society with expertise in:

- A range of disciplines, including but not limited to geography, ecology, conservation science (including protected area designation), land and water systems science, spatial planning, urban planning, architecture, law, political science and economics;
- The application of spatial planning methodologies and related planning and management approaches in relation to biodiversity and nature's contributions to people, in terrestrial (including inland waters) and marine systems, including land and sea planning, environmental impact assessment, economic and social zoning, community planning, land and sea use frameworks, and governance frameworks for integrated planning and management;
- The pertinence, effectiveness and limitations of existing methods, guidance, tools, scenarios, models, data, knowledge and capacity building for promoting connectivity and integrating biodiversity in spatial planning, across sectors and scales;
- The trade-offs and synergies between different types of spatial planning methodologies and of land, inland waters and sea use;
- Methodologies for promoting participatory approaches to spatial planning (including those involving Indigenous Peoples and local communities);
- The ecological requirements of migratory and wide-ranging species, complex species communities and diverse ecosystem processes;
- Ecological restoration to recover and enhance biodiversity and ecological connectivity to support ecosystem resilience, climate change adaptation and sustainable livelihoods and associated methodologies and approaches;
- The development or application of scenarios of spatial planning regarding synergies and trade-offs in the biodiversity-food-water-health-climate-energy nexus;
- Capacity, financial and technological implementation needs for spatial planning and ecological connectivity interventions.

Governments and relevant stakeholders are invited to ensure gender balance in their nominations.

All nominated fellows (Nominees) need to be available to attend the relevant author meetings, training workshops and induction day for fellows, with the induction day and the first author meeting tentatively scheduled for August 2025.

All Governments and relevant organizations or institutions are encouraged to submit nominations. Nominating organizations or institutions are not required to have been admitted to the Plenary of IPBES as an observer. **Please help us to disseminate this call for nominations of fellows widely.**

Please follow the below procedure for nomination:

- Nominees are invited to complete the application form and attach their curriculum vitae through the dedicated web portal at <https://www.ipbes.net/spatial-planning-assessment/fellows-application> (to access this page you will need to login with your IPBES website log in credentials. Nominees not yet registered on the IPBES website will need to do so at <https://ipbes.net/user/register>). Please note that the nomination form is in English only

and applications should be submitted in English, as the assessment process will be conducted in English;

- The nominating government or organization (Nominator) indicated by the Nominee will receive an email with a link to the nomination form and will be invited to approve and submit the nominations in the web portal;
- Nominators and Nominees will receive confirmation via email once the nomination has been submitted.

Interested early-career individuals wishing to be nominated by a Government are encouraged to contact their IPBES National Focal Point (<https://www.ipbes.net/national-focal-points>) regarding any country specific processes or deadlines and are requested to fill out their application form by **10 January 2025**. Interested experts are highly encouraged to review the information document summarizing IPBES assessment conditions and roles prior to submitting their application (available [here](#)).

Early-career individuals that are selected as a fellow within an IPBES assessment accept the relevant conditions for the assessment, including that the time contributed to IPBES is committed on a pro-bono basis. Experts from developing countries will receive support to attend author meetings and possibly other relevant meetings. Experts from developed countries are to secure their own funding to participate in the meetings.

Nominators (Governments or organizations) should submit the nominations of all Nominees which they would like to support, before **24 January 2025**. Early nominations ahead of this deadline are encouraged. Fellows will be selected by the management committee of the spatial planning assessment, which includes the co-chairs of the assessment and members of the IPBES Bureau and Multidisciplinary Expert Panel.

More information on the IPBES fellowship programme, including selection criteria and available support to selected fellows, can be found on the IPBES webpage: <https://ipbes.net/ipbes-fellowship-programme>.

A dialogue meeting will be organized to facilitate and strengthen engagement by Governments and stakeholders in the nomination of experts and fellows. The meeting will provide information regarding the required relevant expertise of nominees and the nomination process, and will also provide an opportunity for current and previous IPBES experts and fellows to share their experiences of the nomination process and lessons learned. The dialogue meeting is tentatively scheduled for the first week of November 2024, more information will follow shortly.

I thank you in advance for your nominations and your continued support to IPBES.

Yours sincerely,

Dr Anne Larigauderie | Executive Secretary
Intergovernmental Platform on Biodiversity and Ecosystem Services (IPBES)
